Mr. Alan Kalmanoff
Institute for Law & Policy Planning
2613 Hillegass Ave
Berkeley, California 94704

Dear Mr. Kalmanoff,

As a division chief in the Office of the Auditor General, in 1990, we awarded a contract to ILPP to study the state's space facilities planning goals, policies, and recommendations. This comprehensive look at how the state planned, implemented, and managed its facility resources and needs required broad experience, insight, and knowledge. This study of the master plan determined whether the assumptions of the plan were appropriate, the recommendations were consistent and scalable, and if there was structure for carrying them out. Your team quickly identified the key components of the engagement, conducted indepth review and analysis, and made value added recommendations. The resulting report, issued August 10, 1990 was useful and timely.

We found our experience with ILPP professional and competent. We were pleased with ILPP's process and product; thus over the ensuing years, the Office of the Auditor General provided positive recommendations of ILPP to other State of California departments. Moreover, it is important to note that many of the individuals involved in the 1990 report remain with ILPP.

Sincerely,

Marianne P. Evashenk
Former Chief Deputy State Auditor,
Bureau of State Audits
