To Whom It May Concern:

Please allow me the opportunity to extol upon the performance of The Institute for Law and Policy Planning and The Design Partnership in their preparation of a County-wide Facilities Master Plan for Solano County. As manager of this project, I have had the pleasure of working with them on a daily basis and shared their insights into the management of local government in general and facilities management in particular.

During a recent presentation on the policy issues facing Solano County in preparing the master plan, members of the Board of Supervisors expressed great satisfaction with the recommendations made. Many commented that although they had been aware of the issues before, this was the first time they had been presented comprehensively with recommended solutions.

I have every reason to believe that Solano County's master plan will be a working plan and will serve this County for some time to come. I highly recommend The Institute for Law and Policy Planning and The Design Partnership for similar projects.

Sincerely,
