To Whom It May Concern:

It is my pleasure to recommend The Institute for Law and Policy Planning (ILPP) for any project needed by your company or department. In the fall of 2008, ILPP was hired to do an evaluation of the Health Care program at the Clark County, WA, Jail. This evaluation included a summary and recommendations for improvements. I was the Contract Monitor for Jail Health from 1/1/2007 through 12/31/2009.

The process needed to be completed in 4-6 weeks. During this time, they were very organized and efficient in requesting documentation and reports needed from myself as well as the current company contracted to provide the health care services. As you can imagine, there was a definite urgency as the current contract would be expiring in approximately 3 months.

Their summary findings and recommendations were provided in a timely manner, specific and included costs of staffing, supplies, pharmaceuticals, supplies and company overhead.

My impression is that this is a company who knows what needs to be done and is able to complete any evaluation with minimal interruption to day-to-day activities and yet provide the contractee with timely, accurate and appropriate information as requested. It was my pleasure to work with them and have no issues with recommending them to any company or agency in the future. Review their application closely and know you are getting the best.

Please feel free to contact me should you need any further information.

Sincerely,

Rodie Renn-Lasher, MS, ANP-BC, ARNP
